

Working together to support Ofqual's VTQ Action Plan 2023

JCQ and the Federation of Awarding Bodies (FAB) are working together to ensure schools and colleges are provided with the support and guidance they need to ensure Level 3 VTQ students receive their results when they need them to progress to further and higher education.

What are our communications principles?

We will ensure all our communications to schools and colleges are:

1. Clear and Consistent

We will use clear and consistent language and terminology.

2. Targeted

We will ensure that we communicate with the right people; making them aware of the actions they need to take.

3. Timely

We will ensure that the timing of our activity is aligned to key deadlines.

You can find out more about Ofqual's VTQ action plan, including deadlines [here](#).

Ofqual has also launched a new vocational and technical qualifications [Information Hub](#) which brings together the key dates from awarding organisations into one central location for schools and colleges to view and download.
