

Assessing the need for Access Arrangements in Examinations: A Practical Guide **8th edition**

Published by Patoss in association with JCQ, and written by Lia Castiglione, the new edition has been **fully updated to reflect the current JCQ access arrangements regulations** and the significant developments in access arrangements practice since the 7th edition.

The 8th edition provides clear, practical, and reassuring guidance for assessors, SENCos, access arrangements coordinators, and others involved in the access arrangements process. It combines detailed explanation with practical examples, case studies, summaries, and frequently asked questions, making it both a reference guide and a day-to-day working tool.

This edition continues the Guide's long-standing aim: to **help professionals feel more confident, more informed, and better equipped** to make appropriate, evidence-based decisions in line with JCQ requirements.
